Management commentary

Good evening, and thank you for joining us.

Q2 FY27 delivered record quarterly revenue of 2,480 crore, up 14.3 percent year on year, with strong momentum across all three segments.

Industrial Motion had an outstanding quarter, growing 17.1 percent with margins expanding again. Energy Solutions grew 43.5 percent as we won new charger tenders, and Home Appliances continued to gain share in a competitive market.

We continue to invest for the long term, with our new plant on schedule.

We remain confident in our strategy and in our FY27 outlook. With that, I will hand over to Arjun for the financials.

Selected notes to the accounts

N1. Trade receivables include 210 crore due from state distribution companies (Energy Solutions) overdue beyond 180 days.

N2. An expected credit loss provision of 18 crore has been made against these receivables.

N3. H1 FY27 capex of 410 crore relates mainly to the new Home Appliances plant.

N4. Net debt at 30 September 2026 was 940 crore (31 March 2026: 640 crore).

N5. A final dividend of 75 crore for FY26 was paid in September 2026.

Street consensus for Q2 FY27 (for reference)

Revenue 2,440 crore; EBITDA 315 crore; PAT 150 crore.

Transcript extract: Q4 FY26 earnings call, 2026-05-14

Meera Kulkarni, CEO: FY26 closed with revenue of 8,860 crore and an EBITDA margin of close to 14 percent.

Arjun Sethi, CFO: For FY27 we are guiding to mid-teens revenue growth, with EBITDA margins in the 13.5 to 14.5 percent band.

Arjun Sethi, CFO: Capex for FY27 will be around 600 crore, and net debt to EBITDA will stay below 1x.

Meera Kulkarni, CEO: Energy Solutions will reach EBIT breakeven by the fourth quarter of FY27.

Analyst, Brightwater AMC: Working capital in Energy looks stretched. How much of your receivables sit with state utilities?

Arjun Sethi, CFO: It is within normal ranges for the industry, and we monitor it closely.

Transcript extract: Q1 FY27 earnings call, 2026-08-06

Meera Kulkarni, CEO: Q1 revenue grew 13.9 percent to 2,300 crore, in line with our mid-teens ambition.

Arjun Sethi, CFO: The Q1 margin dip is transitory. Commodity costs have peaked, and we expect to be back within our guided band from Q2.

Arjun Sethi, CFO: Working capital should normalise by the end of Q2 as channel inventory unwinds after the summer season.

Analyst, Tamarind Research: Can you quantify the receivables from state discoms in Energy?

Meera Kulkarni, CEO: We'll share more detail at the right time.

Priya Nair, President, Energy Solutions: We are pricing for share in charger tenders this year; margins will follow scale.

Analyst, Halden Securities: Is the full-year margin band still achievable after an 11.4 percent quarter?

Arjun Sethi, CFO: Yes. We remain comfortable with the band.
